

## Accreditation procedure for the 2019 season started

- **Media representatives can apply for season or one-event accreditations online**
- **Official DTM media day during the ITR tests at the Lausitzring on 16 April 2019**
- **Important precondition: up-to-date and complete information at [media.dtm.com](http://media.dtm.com)**

Applications for accreditation for the 2019 season have now been opened. Registered media representatives can use the DTM accreditation system at the DTM media website, <http://media.dtm.com/>.

As was the case in the past, full-time journalists and photographers can be accredited for the entire season or for individual race meetings.

A special accreditation procedure is required for TV and broadcast staff, as well as all other producers of moving images content (online portals, social media etc.). Should this apply, please contact [accreditation@dtm.com](mailto:accreditation@dtm.com) by email. Accreditation guidelines are available at the DTM media website and contain all necessary information.

Media representatives that have yet to apply must first register at the DTM media website. Once your registration has been confirmed you can apply for an accreditation.

Note to all media representatives already registered: please double-check your existing details and update the system with any changes.

### Media day with DTM and W Series at the Lausitzring

For the first time, this year's official DTM tests will be held at the Lausitzring. In addition to DTM, the competitors in the new W Series also will use the tests at the German circuit to prepare for the 2019 season.

On Tuesday 16 April 2019, ITR therefore allows accredited media representatives to attend the test at Lausitzring. Applying for obligatory accreditation is now available via <http://media.dtm.com>. Detailed information on the media day schedule – such as press conference times – will be published in due course.

Pre-conditions for seasonal accreditation: official confirmation of your role and engagement by the senior member of your editorial department; attendance at no fewer than five DTM rounds during the 2018 season.

If you do not meet these stipulations, may still individually apply for individual DTM event accreditation. Regardless of whether you need season- or race-by-race accreditation, applications for the Lausitzring test are open now.
